SOLUTIONS FOR
TOYOTA

POWER & EMISSION ISSUES? SOLVED WITH ALETEK'S DPF FOR LANDCRUISER

Had enough of low power, pressure issues and DPF cleaning? Aletek's purpose-built DPF upgrade solves these issues and delivers exceptional emission reductions.

- Passive regenerating design
- >99% DPM reduction for wall-flow designs
- 304 grade stainless DPF, heavy gauge plate for high fatigue zones
- No more low power or pressure issue
- Backpressure and temperature logger ensure peak performance

Aletek design and fabricate superior direct-fit DPFs for mine fleets. Ask about our onsite services, install guides, training and more.

*Note: Light Vehicle (LV)

Direct-fit integration with
Toyota LC HZJ79

Reduced Total Ownership Cost. 12-month
servicing versus 4-8 weeks OEM
