ALETEK EXHAUST PARTS – A RELIABLE OEM ALTERNATIVE

Downtime is costly. Aletek OEM Replacement Exhausts are an investment in your productivity. Our purpose-built range is designed for extended durability and reduced risk of downtime.

- Design enhancements like solid machined flanges and reinforced components
- Superior quality materials, fabrication and workmanship
- Upfront cost savings and reduced Total Cost of Ownership
- Engine pipes, bellows, air intakes, mufflers, exhaust parts, install hardware and more
- Key assets 'in stock' for less downtime
- Our dual-wall OEM replacement range features strategically located vent ports to prevent inner wall failure

Aletek fabricate premium exhaust upgrades to enhance productivity. Ask about our onsite services, install guides, training and more.

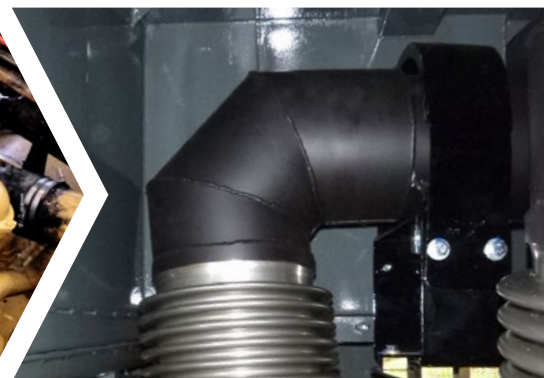

*Note: Exhausts supplied in Aletek's Gunmetal Grey

Mitigate the risk of engine fires by adding thermal blankets to critical heat components

Exhausts bolt onto turbo outlets, pipes swappable with OEM components

Exhausts follow the OEM path and bolt into place without major modifications
