DPF TO SUIT CAT R2900G/R3000H (C15)

DPF UPGRADE FOR R2900G/R3000H

Aletek's DPF system is a direct-fit replacement for in-line installation on Cat R2900G/R3000H LHDs. This system improves air quality, exhaust performance and efficiency.

- Compatible with Caterpillar engine specifications
- Wall-flow DPF with regenerative catalyst coating
- Heavy-duty stainless steel
- Premium North American filters
- >99% DPM emission reductions
- Extended service life and reduced cleaning costs
- Oversized filters to prevent low power and backpressure issues

Safer air for underground	Direct-fit system	DPM >99% Trap diesel particulates	Premium grade filters	Reduced backpressure	Extended service life	Plug & Play data logger

Heavy duty stainless steel construction with top-mounted lift points

Custom pipe fabrication with pipe-mounted probes

Designed for in-line replacement and integration with existing exhaust system

DPF TO SUIT CAT R2900G/R3000H (C15)

① DPF TO SUIT R3000H (C15)

Integration	Direct-fit replacement
DPM Emission Reductions	>99% (by count)
Gaseous Emission Reductions	>90% CO, 60-80% HC/VOCs
OEM Compliance	Meets Caterpillar specifications
Product Lifecycle	<20,000 hours
Warranty	12 months
Part No.	**203-548** (DPF Group)

DPF SYSTEM COMPONENTS

② ENGINE PIPE

Part No.	213-746

③ ROTABLE FRAME (Option)

Branding	Site logo
Features	Forklift points, sealing cap
Finishing	Custom colour for your site

DPF DATA LOGGER

Plug & Play data logger

Data port for Download

④ DPF DATA LOGGER

Enclosure	Stainless Steel IP66
Monitor	Record backpressure, engine RPM, exhaust gas temp.
Wiring	Plug and Play harness
Cable Fittings	Mil-Spec cable terminations with cannon fittings
Hoses & Sleeves	Stainless braided Teflon hose, fire-rated sleeve
Download	Dash-mounted data port
